## Technical Skills

- React Js
- Javascript
- SQL
- Python
- Blockchain development ( Solidity )
- Microsoft Azure
- SAP Basis
- HTML5, CSS3, Bootstrap

## Experience skills

- 1.5+ years of Web developing Experience
- Ability to demonstrate proficiency in Responsive Design and Accessibility.
- Ability to work with UI/UX designers to design and develop solutions based on industry best practices and implementing new UX solutions.
- Proficient knowledge of code versioning tools such as GIT
- Deep understanding of CSS and all its properties

## Educational Qualifications

### B.tech (2016-2020)

( Computer science and engineering )  
Bhilai Institute of Technology, Raipur

80.01%

### Class 12th CBSE (2015-2016)

(Chhattisgarh Public School)

61.80%

### Class 10th CBSE (2012-2013)

(Chhattisgarh Public School)

74.10%

## Work Experience

### SAP Basis Consultant (Dec 2021- Present)

- Worked Configured and monitored number of ERP solutions. Did several SAP and AWS Certifications.

### Web Developer in Infomatics Technologies (Aug 2020- Sep 2022)

- Worked on various ERP solutions, made websites using React JS and used Oracle DBMS for managing databases

### Machine Learning Intern at Effcon Technologies (2019 - 6 Weeks)

- Designed and developed various ML models and worked on various frameworks like pytorch, TensorFlow and scikit-learn

## Projects

### Hita (2022)

**Technologies used: Next js, React js, Javascript, CSS3**

- Modern Full Stack Ecommerce application with Payments functionality. With Modern design, animations, the ability to add and edit products on the go using a CMS,

### delicioussss (2022)

**Technologies used: React js, Javascript, Styled components**

- Full recipe app with ingredients and step-by-step instructions with various cuisine options

### View morphing using deep learning (2020)

**Technologies used: Python, CV2, numpy, OpenCV**

- Achieved realistic image transitions implemented through python and OpenCV

### Handwriting generation using LSTM (2019)

**Technologies used: Python, LSTM, numpy, pytorch, matplotlib, tkinter**

- Designed a system using LSTM, pytorch, and some data processing which provides a solution to those who are unable to pen down their thoughts.

- Familiarity with MySQL and oracle report builder.
- Hands on experience with Microsoft Azure

## Hobbies

- Travelling
- Gaming
- Reading novels

## Languages Known

- Hindi
- English

## Professional Certificates

- Microsoft Certified: Azure Administrator Associate (AZ-104)
- Microsoft Certified: Designing and Implementing Microsoft Azure Networking Solutions (AZ-700)
- SAP Certified Technology Associate - OS/DB Migration for SAP NetWeaver 7.52
- Learn React – The complete React JS guide from Udemy
- React JS Certification – Full Stack Web Developer by Coursera

## Trainings

### **Python (from Effcon : 4 weeks : 2019)**

- The course covered all basics of python and its implementation

### **Machine Learning (from Effcon : 4 weeks : 2019)**

- The course covered Machine Learning with the help of Python
- Learned Data analysis with the help of Pandas and numpy

### **Ethereum and Solidity Learn to build Blockchain (from Udemy : 2021 - Present)**

- Use Ethereum, Solidity, and Smart Contracts to build production-ready apps based on the blockchain
